Financial Support for:

**YMCA
Camp Carson**

Doc Bender gave a short medical minute on the “hand”. The thumb is one of the most important organs in our bodies. We should protect our hands by using gloves for everything (gardening, household chores etc.) we’ll appreciate it in the long run! He challenged us to comb our hair & brush our teeth using our opposite hand (whew, that’s a challenge). We were reminded by a fellow club member of what a great surgeon Doctor Bender was in Evansville, “thumbs up” to you Doc 😊

Our speaker today was Sean O’Rear with Tin Man Brewing Company. Tin Man is new to Evansville and will open in November. It’s located at 1430 W. Franklin Street. Beer has a long and rich history and all efforts are put forth to produce beer that is flavorful. They use a Mash filter system that helps conserve both energy & water. This type of filter uses about 40% less water & 15-20% less natural gas than traditional Lauter Tun. Tin Man is the first craft brewery of its size in the U.S. to use this system. Tin Man’s model is to integrate new technology to deliver beer in a “bag & box” that does not have to be kept cold (cold Mobil carts are being built). Self- distribution is how Tin Man will deliver 7 days a week. They provide the equipment that is available to bars for a minimal cost which will increase the number of taps they have.

The demand for this type of brew has been great, media and social networking was used to target the demographic ages of 21-34. Right now they have 5 employees but will have approximately 20 after they open. In addition to beer, Tin Man will have a kitchen in the front of the building that will offer food. They hope to become a pillar in the community that could eventually turn into a franchise.

Meeting adjourned at 1:05
